

Rahul Lodha

Team Lead / Senior Laravel Developer | Experience: 8+ Years | Education: B.E. (Computer Engineering)

Location: Ahmedabad, India | Email: rdlodha3688@gmail.com | Phone: +91 9033746399

Work Experience

Team Leader

Xceltec Interactive Pvt. Ltd., Ahmedabad | May 2026 – September 2026

- **Truffle India (RPOS) — Multi-Module Restaurant POS & Cloud ERP Platform:** Backend developer on a comprehensive cloud-based restaurant POS and 15+ integrated modules across billing, kitchen operations, delivery, and multi-branch administration.
- Engineered a high-speed POS billing and checkout engine for Dine-in, Takeaway, and Express orders, with real-time tax calculation, split billing, custom discounts, and multi-tender payment processing.
- Developed a RESTful API suite powering the Captain handheld app, enabling waitstaff to take table-side orders, apply modifiers, and process table payments.
- Supported junior developers in diagnosing and resolving complex calculation-related bugs across cross-platform applications, including POS User Web and Captain App.

Senior Laravel Developer

Ninjatechnolabs, Ahmedabad | Feb 2023 – April 2026

- Developed and maintained scalable Laravel applications, RESTful APIs, database modules, integrations, and backend services.
- Collaborated with architects and development teams on performance, code quality, debugging, refactoring, and SDLC activities.

Laravel Developer

Corefragment Technologies Pvt. Ltd., Ahmedabad | Jan 2018 – Jan 2023

- Built and maintained Laravel/PHP web applications, APIs, database modules, and administrative systems.
- Worked on feature development, integrations, debugging, optimization, and production support.

Professional Synopsis

- Senior backend engineer and Team Lead with 8+ years of experience in architecting and facilitating web solutions.
- Expertise in the PHP ecosystem, specifically Laravel, with a strong foundation in Core PHP and CakePHP.
- Proven track record of collaborating with Software Architects to implement high-performance coding standards and scalable architectural practices.
- Specialized in building interactive web applications and RESTful APIs that ensure seamless performance across Mobile and Desktop environments.
- Adept at debugging, refactoring legacy code, mentoring junior developers, and managing the full Software Development Life Cycle (SDLC).

Technical Skills

Category	Tools & Technologies
Languages	PHP (Core & Laravel), JavaScript (ES6+), HTML5, CSS3, SQL
Frameworks	Laravel (up to v12), CakePHP, Bootstrap, jQuery, Unit Testing
Databases	MySQL, MongoDB
Cloud & Servers	AWS (S3, EC2), Nginx, Apache, WAMP, Laragon
Tools & Dev	GitHub, Bitbucket, GitLab, phpStorm, Sublime, Postman
Management	JIRA, Trello, Basecamp
API / Integrations	Stripe, PayPal, Authorize.net, Square POS, Google APIs, Audd.io, Branch.io

Key Projects

1. Truffle India (RPOS) — Multi-Module Restaurant POS & Cloud ERP Platform

Role: Team Leader / Backend Developer

Tech: Laravel, PHP, MySQL, REST APIs, POS integrations.

Contribution: Developed POS billing and checkout functionality, Captain App APIs, tax/modifier/payment calculations, and supported junior developers with complex cross-platform calculation bugs.

2. Emari Roast Café | Franchise Management & E-commerce

Role: Senior Developer

Tech: Laravel 10, MySQL, AWS S3, spatie/laravel-permission, Square POS, Authorize.Net.

Contribution: Designed a multi-tenant backend for franchise management. Implemented Role-Based Access Control (RBAC) and complex ordering modules for a seamless multi-franchise experience.

3. Inmolecular | Real-time Asset Tracking System

Role: Lead Backend Developer

Tech: Laravel, MySQL, IoT API Integration.

Contribution: Developed a real-time dashboard to monitor asset location, temperature, and battery life. Built historical data analytics for humidity and temperature tracking.

4. Pillare-Benchmark | Project & Contractor Marketplace

Role: Lead Backend Developer

Tech: Laravel, jQuery, Bootstrap, Subscription API.

Contribution: Built a freemium/premium membership system with transaction tracking. Developed an admin panel to manage diverse user roles (Workers, Constructors, Owners).

5. Muzem | Music Recognition

Role: Backend Developer

Tech: Laravel, Audd.io API, Stripe.

Contribution: Integrated third-party music recognition APIs and secured payment gateways for a streamlined user experience.

6. MyJamel | Bilingual Health & Activity Tracker

Role: Developer & Admin Portal Lead

Tech: Laravel, MySQL, Multilingual (Arabic/English) Localization.

Contribution: Developed a comprehensive logbook for activity tracking (steps, diet, route mapping) and integrated weather advice services.

7. WebOfficeA-Mutsumi

Role: Backend Developer

Tech: Laravel, GCP (Google Cloud Platform), Apple Pay (In-App Purchases).

Contribution: Integrated Apple Pay for subscription management and utilized GCP for secure cloud file storage.

Education

Bachelor of Engineering in Computer Engineering — L.J. Institute of Engineering and Technology, Ahmedabad | August 2014 – December 2017 | CGPA: 8.98

Diploma in Computer Engineering — Excel Institute of Diploma Studies, Kalol | June 2011 – July 2014 | CGPA: 7.86

Higher Secondary Certificate (12th Grade) — Diwan Ballubhai Higher Secondary School, Paldi, Ahmedabad | March 2011 | Percentage: 65.06

Secondary School Certificate (10th Grade) — Diwan Ballubhai Secondary School, Paldi, Ahmedabad | March 2009 | Percentage: 55.08

Core Responsibilities

- **Leadership:** Supporting junior developers, reviewing solutions, troubleshooting complex bugs, and coordinating backend development activities.
- **Architecture:** Database design and schema optimization for high-load applications.
- **Development:** Building scalable RESTful APIs and highly interactive frontends.
- **Quality Assurance:** Performing developer-level testing and bug fixing to ensure 99.9% uptime.
- **Documentation:** Crafting detailed design-level documentation and API Swagger docs.
